Professional Summary

Results-driven Full-Stack Developer with 3+ production-grade projects specializing in MERN stack, real-time systems, TypeScript, and cloud infrastructure. Proven track record of improving user engagement and system reliability through scalable, high-performance applications. Experienced in Agile methodologies, microservices architecture, CI/CD pipelines, security best practices, and test-driven development. Seeking a software engineering role to build reliable, high-impact solutions in a product-driven team.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, C++, HTML5, CSS3

Frontend: React.js, Redux Toolkit, Tailwind CSS, Zustand, Context API, User Experience Design, Responsive Design

Backend: Node.js, Express.js, Socket.io, REST API Design, API Design, JWT, Security, WebSockets, Microservices Architecture, API Integration

Database: MongoDB, Redis, SQL, Query Optimization, Performance Optimization

DevOps & Cloud: Docker, AWS (EC2, S3), CI/CD, Continuous Deployment, Cloud Deployment, Cloud Infrastructure, Git, Nginx, Vercel

Testing & Methodologies: Test-Driven Development, Unit Testing, Performance Testing, Postman, Scalability

Professional Experience

React.js Developer Intern – ThinkNEXT Technologies Pvt. Ltd., Chandigarh

- Built a full-stack social networking app (React.js, Node.js, MongoDB) with 10+ reusable components; reduced front-end development time by **30%** and improved team code reuse by **25%** following Agile sprint methodology with CI/CD and continuous deployment.
- Implemented security best practices with JWT authentication, role-based access control, and API design standards — achieving **sub-200ms response times** and **zero downtime** for 50+ concurrent users.
- Applied test-driven development and unit testing across all API endpoints, improving overall system reliability by **20%** with zero production incidents.

Projects

NOTES.pro | *React.js, Node.js, MongoDB, Zustand, JWT, Google OAuth* | [Live Demo](#)

- Built a full-stack productivity web application featuring integrated text notes, an interactive code editor, and digital draw board workspaces; managed complex split-view UI states with **Zustand** across all dashboard modules.
- Implemented security-focused dual-token JWT authentication (access + refresh tokens) with seamless Google OAuth integration, enabling robust **multi-device session tracking** and real-time session revocation capabilities.
- Designed a high-performance unified search API querying 3 distinct core resource types in parallel utilizing **Promise.all**, significantly optimizing database access routines and minimizing client-side loading latency.

MentoAI – Agentic AI Assistant | *React.js, Node.js, LangChain, Pinecone, RAG Pipeline* | [Live Demo](#)

- Built a production-grade RAG pipeline (LangChain, LangGraph, Pinecone) with semantic chunking and intelligent query routing, achieving **85%+** domain query accuracy and reducing AI hallucination rate by **40%** via Tavily API integration.
- Deployed via cloud deployment pipelines on Vercel; delivered scalable streaming responses with markdown rendering across **100+ query types**, reducing release cycle time by **50%** and improving user engagement.

Smart Ignition Circuit – IoT Safety System | *Arduino, Embedded C, Sensors, IoT*

- Designed an IoT-based smart ignition system preventing vehicle start without helmet detection; awarded **2nd place at Science Day 2024** and **Eminence 2024**; presented to **200+ attendees** at Pushpa Gujral Science City.

Education

B.Tech in Information Technology – Chandigarh Group of Colleges

CGPA: 8.1 / 10

Certifications

- **AWS Cloud Engineering** – Amazon Web Services (2025)
- **React.js Development** – ThinkNEXT Technologies (2024)
- **Full-Stack Web Development** – Infosys Springboard (2023)
- **JavaScript Programming** – Infosys Springboard (2023)
- **Smart India Hackathon** – Team Collaboration & Innovation (2023, 2024)
- **CSS & Responsive Design** (2023)

Achievements

- **2nd place** – Science Day 2024 (IoT Project)
- **2nd place** – Eminence 2024 (Tech Competition)
- **2nd place** – Ideathon (Innovation Challenge)
- Selected for Smart India Hackathon 2023 & 2024
- Presented at Pushpa Gujral Science City (200+ audience)
- Participated in Science Day 2023
- Coordinated GD Everest 2023 & Techathon 2024
- Participated in inter-college Treasure Hunt
